Marques de commerce
Certificat d'enregistrement

La présente atteste que la marque de commerce identifiée dans l'extrait ci-joint, tiré du registre des marques de commerce, a été enregistrée et que ledit extrait est une copie conforme de l'inscription de son enregistrement.

Conformément aux dispositions de la Loi sur les marques de commerce, cette marque de commerce est renouvelable tous les quinze ans à compter de la date d'enregistrement.

Trade-marks
Certificate of Registration

This is to certify that the trade-mark, identified in the attached extract from the register of trade-marks, has been registered and that the said extract is a true copy of the record of its registration.

In accordance with the provisions of the Trade-marks Act, this trade-mark is subject to renewal every 15 years from the registration date.

metadataX

metadataX™ - Data/Configuration Management

SCDS Corp. developed **metadataX™** software on top of EasyPHP, a open-source **WAMP** solution stack:

- **Windows** - OS
- **Apache** - web server
- **My SQL** - multithreaded, multi-user, SQL database management system
- **PHP** - general-purpose programming language interpreted by the web server through a PHP processor

metadataX™ is:

- a graphical management system for both spatial and non-spatial (meta)data, integrating highly visual data(bases)/archives, which are hierarchically structured in an easy-to-use environment
- very user-friendly; it can be easily understood and effectively used by any professionals, regardless of user experience with data/configuration management tools
- an integrated solution implementing simple and reliable mechanisms for both data and configuration management
- an open source S/W, user-customizable to a large extent
- an effective tool for packaging and presenting any project deliverables

metadataX™ provides a wide access to data via multiple operation modes: **Internet, Intranet, Standalone**. If used in standalone mode, cross-platform data sharing and portability is ensured by reliable import/export functions.

deployment

- * standalone
- * intranet
- * web
